

MannaMax – Approved for Organic Use

Immune Response Supplement

Mannamax combines the benefits of live active yeast and yeast cell wall extract in one product. Live active yeast has numerous proven benefits in the livestock industry in helping to prevent acidosis and stimulate growth of beneficial lactic acid consuming bacteria. Yeast cell wall extract improves growth and production in the livestock industry by enhancing the animal's immune response and eliminating harmful bacteria from the gut. This powerful combination enhances immunity and digestion for a healthier cow better and increased production. For use in beef, dairy, swine and poultry feed.

Component Analysis

Yeast Cell Wall Extract

- Moisture.....< 8%
- Protein.....>25%
- Glucan.....>20%
